GEN. WOOD TO COMMAND HAWAII DIVISION SOON

MAJ. GEN. WOOD

Chief of staff, who may command the Oahu garrison in 1913.

"Underground Wireless" to Ranking Officer Here Says Present Chief of Staff Will Take Command of the Army of Oahu Next Year

The guess made some months ago by army higher-ups, that Major General Leonard Wood was slated to command the new Hawaii division of the army as soon as his detail as chief of staff expired, has become a practical certainty. Letters just received by ranking officers here who have good "underground" connections with Washington, state that General Wood will come to Hawaii early in 1913, and will take command of all the troops on the island, the department being raised to a division, and being run directly with the War Department, and not through the Western Division.

The plan is, according to the letter of one army politician, to put a brigadier general in command of Schofield Barracks, General Macomb being down for this command. He would then make his headquarters at Lihou, General Wood, of course, making his headquarters in Honolulu.

This scheme meets with the general approval of army officers here, for two prime reasons. In the first place,

the distance between Hawaii and division headquarters at San Francisco throws continual obstacles in the way of the satisfactory transaction of official business. It takes so long for letters and papers to go by the mail that official business is often held up in a most unsatisfactory manner. Then again, the Western Division officials are not thoroughly conversant with conditions here, and cannot direct the work of the army on Oahu as well as could some one on the ground, armed with the proper authority.

The second reason for the plan's favor locally is that for some time past troops stationed at Schofield have realized the desirability of a general officer to command the post. As it is at present, the senior colonel, to whom the post command falls, is forced to let go of many of his regimental duties, to administer the affairs of the big brigade post, and it is hard to satisfy all arms of the service, no matter how faithfully or disinterestedly the commanding officer works. If either an infantry, cavalry or artillery officer is in command, the other two arms think they are getting the worst of it. The only solution to the puzzle is a general officer to command Schofield Barracks, and for this reason the coming of General Wood is well thought of.

ARMY AND NAVY NOTES

Naval demonstrations at San Francisco, Manila and New York October 14 and 15 have been ordered by the Navy Department. Simultaneously with a review of the Atlantic fleet at New York the Pacific fleet will rendezvous at San Francisco and the Asiatic fleet at Manila. Officials say there is no political significance in the order.

The demonstrations will follow the program of exercises of the Atlantic fleet now in progress off the coast of New England. The vessels will assemble in the lower Hudson river at New York for review by President Taft and the Secretary of the Navy. The new naval monsters, Arkansas and Wyoming, the latest additions to the navy, will be commissioned in time to take part.

The President and his guests, including prominent officials and members of the diplomatic corps, will review the fleet from aboard the Arkansas, and Rear Admiral Osterhaus, commanding the fleet, will use the Wyoming as his flagship.

In number and tonnage the fleet will exceed that which was reviewed in the same waters last year. In addition to the new ships it will include the vessels of the Atlantic reserve fleet and the torpedo and submarine flotillas. Arrangements for the review are now being made by the officials of the Navy Department.

and the officers of the fleet.

It is said that the plans of assembling and review will be materially different from the ones carried out at the demonstration last November.

According to the estimate made at the Navy Department, there will be about 120 vessels gathered in New York harbor. This is approximately twenty-one more than were present at the great demonstration last November.

The rendezvous of the Asiatic fleet is dependent upon the conditions then prevailing in China, it was said at the Navy Department.

At San Francisco about fifty vessels will be called together under command of Rear Admiral Southerland. The Asiatic fleet will assemble approximately twenty vessels, under command of Rear Admiral R. F. Nicholson.

The revenue cutter service received full measure of official commendation by President Taft and Secretary MacVeagh for the work of Capt. K. W. Perry and the officers and crew of the revenue cutter Manning, on Kodiak Island, Alaska, during the volcanic eruption of Mount Katmai from June 8 to 9.

The Manning rescued 500 people, many of whom would have perished but for this timely aid, which the President wrote "compels admiration and deserves praise." Instead of putting to sea beyond the zone of dan-

FEEL SHAKY, BILIOUS, HEADACHY, OR CONSTIPATED? TAKE CASCARETS

Sick headaches! Always trace them to lazy liver, delayed fermenting food in the bowels of a sick stomach. Poisonous, constipated matter, gases and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache.

Cascarets remove the cause by stimulating the liver, making the bile and constipation poison move on and

out of the bowels. The effect is almost instantaneous. Ladies whose sensitive organisms are especially prone to sick headaches, need not suffer, for they can be quickly cured by Cascarets. One taken tonight will straighten you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular and make you feel bright and cheerful for months. Children need Cascarets, too—they love them because they taste good and never gripe or sicken.

CANDY CATHARTIC

PLAN OUTLINED FOR FLY FIGHT

At a meeting of the board of agriculture and forestry yesterday, a scheme of cooperation with the Federal officials was submitted by the committee on entomology consisting of W. M. Giffard, Albert Waterhouse and J. M. Dowsett. After reciting the passage of the Federal act appropriating \$35,000 for the investigation of the Mediterranean fruit fly in the United States and the arrival of Dr. Back to take charge of the work here, the committee says that Dr. Back has instructions from the chief of his department to avail himself of the cooperation of the territorial board of agriculture, also mentions the formal withdrawal of the California board from this scene of action, and concludes with the following recommendations, which the board adopted:

"1. That the direction of the fruit fly control by artificial means, as already organized and operated by the Territorial board of agriculture and forestry, be assigned to Dr. E. A. Back, as its special agent, and that the president and executive officer be authorized to commission Dr. Back as said special agent for the purpose named, the said assignment and commission to be dated as of September 15, 1912.

"2. That the president and executive officer be authorized to allow the balance of the Territorial appropriation for combating the fruit fly by artificial means to be expended under and by direction of Dr. E. A. Back, as special agent in cooperation with the Territorial board of agriculture and forestry, or its executive officer.

"3. That the use of a portion of the premises, now partly occupied by the offices and laboratories of the board, be tendered to Dr. Back for such purpose as he may deem necessary in connection with the work to which he has been assigned by the U. S. Bureau of Entomology.

"4. That your executive officer be authorized to officially acquiesce in the proposal of the California state horticultural commissioner that financial assistance be withdrawn as of September 1, 1912."

ger, the President pointed out, the Manning remained in port in the face of apparent destruction.

In addition to Capt. Perry, Secretary MacVeagh commenced Lieuts. W. K. Thompson, J. F. Hahn and K. W. Kraft, Shipwright F. R. Breed, Assistant Master-at-Arms R. J. Madden, oxswain O. Hultfeld and Sea man F. Campbell.

Twenty-two died and many are missing as a result of storms and floods in Pennsylvania.

Samuel Coolidge-Taylor, the composer of "Hiawatha," died in London. He was born in 1875.

Emperor William reviewed 60,000 soldiers, the largest peace army ever gathered in Berlin.

DO YOU SUFFER

From Nervous Debility, Insomnia, Weak Memory, Premature Decay, Exhausted Vitality or any other Form of Neurasthenia?

If you have been reduced to despair by physical and mental exhaustion — if you have gradually lost hope through trying various remedies without benefit — if your constitution is broken, your vitality wasted —

Do Not Give up! Try PERSIAN NERVE ESSENCE

It will act like magic. You will derive from its wonderful oriental properties the reconstructive power and regenerative force necessary to restore the full vigor and energy of active health and strength. Your eye will regain its brightness, your step its elasticity, your brain its activity and clearness, your nerves their steady reliability.

ABSOLUTE GUARANTEE

A single box of Persian Nerve Essence will bring marked improvement and may cure in slight cases. The proprietors, The Brown Export Company, New York, authorize all Chemists to refund the money if the full course treatment of six boxes is taken and does not cure. You take no risk. Give Persian Nerve Essence a good fair trial. The sooner you begin, the sooner your suffering will end and the easier it will be to effect a complete cure.
